PROFILE

I am a Data Science and Artificial Intelligence student with a strong passion for learning and self-development. I have a high ability to learn new skills quickly and adapt to different environments. I am also an active volunteer who enjoys helping others and contributing to my community. In my free time, I am a hiker who loves exploring nature and challenging myself outdoors. These experiences have helped me build discipline, resilience, and a positive mindset in both my academic and personal life.

EDUCATION

Al-Albait University, Mafrq, Jordan

- B.Sc. in Data Science and Artificial Intelligence. Oct 2023 – Expected Jun 2027
- Relevant Coursework: Programming languages, Data Structures, Database Systems, Algorithms, Machine Learning, Deep Learning, Artificial Intelligence, Data Science, NLP, Operating Systems, Discrete Mathematics.

JBS – English Language Program

- 2021 – Jun 2025 .Completed English courses from beginner to advanced (pre-A1 to C1)

ACADEMIC PROJECTS

- [Doctor AI](#) – support doctors by providing faster and more accurate analysis of medical images or data.
- [Noor](#) – Assistive AI app for blind and deaf users with real-time scene description, sign-to-text/voice, and caregiver dashboard.
- [Mowthooq](#) – Smart verification & authoring tool for content creators (news fact-checking, spell checking, TTS).
- [GrowWise](#) – App that personalizes students' tech journey by finding skill gaps and recommending courses and projects.

LANGUAGES

- Arabic - Native
- English - Full Professional

CERTIFICATES

- ERF Competences—Life Long Learning Skills within the European Framework | JYIF | 120 Hour | August 25
- Aspire Leaders Program 2025 — Completed all modules (40 hours)
- Oracle — Cloud Infrastructure AI Foundations Associate
- Masterminds Bootcamp: Nawa 2025 — Design Thinking, Branding, SWOT, MVP
- GAME Jordan — Entrepreneurship & Project Management (19 hours)
- Hello Future 101 — Digital Foundation & Entrepreneurship (28 hours)
- Cisco Networking Academy — Python Essentials 1 & 2
- Huawei — Overview of AI
- HTU — Python Power-Up Pathway

SKILLS

- Programming: Python, R, Java, C++, HTML, CSS, JavaScript
- AI & DS: Machine Learning, Deep Learning, NLP, Data preprocessing, model training, and evaluation
- Problem-Solving
- Design Thinking & MVP Development
- Teamwork & Leadership
- Communication & Collaboration

Awards

- I have participated in several national competitions, hackathons, and technical bootcamps, including 2nd Place – Mafrq Governorate AI Hackathon 2025 (Jordan Engineers Association), CodeScape – IEEE CS UJ Problem-Solving Competition, IEEE Jordan AI Modeling Hackathon 1.0, ICPC Jordanian Collegiate Programming Contest 2024, Tech3arabi AI Hackathon (AI product for content creators), IEEEExtreme 19.0, the Zain & Nokia AI Bootcamp, and Jordan Students Pitch Competition 2025 (QRCE).

Volunteer

- Treasurer IEEE CS AABU (Jan 2025 – Present) – Managing chapter finances and supporting student activities and events.
- Usher – TEDxAmman and TEDx University of Jordan – Supporting event logistics, registration, and attendee guidance.
